Kids: color stuff in!

In Lands of Cold and Snow!

Seals, hares, oxen, foxes and squirrels are some animals that can live in cold, snowy climates. Do you know other animals that live in lands of cold and snow? Many live where land and water meet. Will you read the clues below and fill in the crossword? I can "bearly" wait to see the answers.

- walk in single file; lead animal breaks trail in snow; known to travel great distances
- large sea animal hunted for its hide, ivory tusks, oil; moves in herds; sunbathes in groups
- Dall _____ - horned animal; hooves have rough pads to help traverse mountains
- polar _____ has black skin, but "white" fur; hunts seals from sea ice
- large, beaked bird; dives up to 60 meters to catch fish
- collared _____ - burrows under snow; eats stored seed, bark
- snowshoe _____ - lives above ground unlike many long-eared cousins; grows white coat of fur for camouflage
- timber _____; moves up to 12 miles a day in a pack to hunt
- largest of northern deer; wide hooves help it walk in snow
- Alaskan _____; oldest known sled dog; does not normally live in wild, cared for by people; has strength and endurance
- snowy _____; stays awake during day, unlike others; white feathers; travels to slightly warmer places in winter
- fluffy white animal; can hear prey as it moves under snow
- short legs, long nose and hair; finds things under snow using smell
- flightless bird glides on stomach along snow, ice; huddles with others for warmth; oil on feathers protects from cold water
- bird; migrates to slightly warmer climates for cold winter months; moves in large groups to protect young from predators like arctic fox

Who Am I?
I live on the edge of snowy lands and in the icy waters. I am a wonderful swimmer and diver! Who am I?

Follow the dots to see me!
